

# Message to Developer: KWIHANGANA Beda

From: MrVue

Hello **KWIHANGANA Beda**,

I hope you are doing well. My name is **MrVue** and I am reaching out to you as a developer. I would like to share a clear message about collaboration, professionalism, and project development goals.

## Key Message

I am interested in working with you on website and software projects. My goal is to build modern, professional, and well-structured systems that can be used in real-world environments.

## What I Expect in Our Collaboration

Topic	Expectation
Communication	Fast, clear, and respectful communication
Code Quality	Clean, well-organized code with comments
UI/UX Design	Modern layout, responsive design, good user experience
Deadlines	Deliver tasks on time with proper testing
Security	Safe forms, validation, and protection against vulnerabilities
Support	Willingness to improve and update the project when needed

## My Request

If you are available, I would like you to help me with projects such as:

- Hotel online booking system
- School search and map integration website
- Contact form connection (Formspre / Email API)
- Modern tourism websites (Visit Rwanda style)

I want these projects to look professional and to work correctly without errors.

## Final Words

I respect your skills as a developer, and I believe we can build strong projects together.  
Please let me know if you are ready, and we can start immediately.

**Best Regards,**

**MrVue**
